

27th - 29th November 2005, Habtoor Grand Jumeirah Beach, Dubai, United Arab Emirates.

ARABIANCOAST 2005 PAPERS

KEYNOTE ADDRESSES

Theme A: COASTAL ZONE MANAGEMENT AND ENVIRONMENT

Theme B: COASTAL DYNAMICS AND MONITORING

Theme C: COASTAL STABILIZATION AND WATERFRONT DEVELOPMENT

Theme D: COASTAL RISK MANAGEMENT

Theme E: PORTS, HARBOURS AND MARINAS

Theme F: COASTAL LEGISLATION, PLANNING AND COOPERATION

Author Index

Subject Index

Keynote Addresses

The Dubai Coastline - The Formative Years

Dr. Chris Fleming, Director, Halcrow Group Ltd, United Kingdom

Pushing the Limits of Coastal Engineering

Prof. William Kamphuis, Professor Emeritus of Civil Engineering, Queen's University, Canada

Overview of Coastal Reclamation Projects and Plans in the Kingdom of Bahrain

H.E. Nayef Omar Al Kalali, Undersecretary of Public Works Affairs, Ministry of Works and Housing, Bahrain

Research as a Base for Dredging Innovation

Prof. Kees d'Angremond, Emeritus Professor of Coastal Engineering, Delft University of Technology, The Netherlands

Coastal Stabilization and Alternative Solutions in International Perspective

Prof. Krystian W. Pilarczyk, Rykswaterstaat, Hydraulic Engineering Institute, Delft, The Netherlands

Successful Waterfront Developments - Work With Nature

Karsten Mangor, Chief Engineer, DHI Water & Environment, Denmark

The Role and Application of Indicators in Integrated Coastal Zone Management with special emphasis on the United Arab Emirates

Dr. Thabit Zabran Al Abdessalaam, Director, Environment Agency, Abu Dhabi, United Arab Emirates

Enhancing the Aesthetic, Recreational and Environmental Value of Beach Restoration Projects, the Spanish Experience

Dr. Gregorio Gomez-Pina, Head of the Andalusian Coastal District, Ministry of Environment, Spain

Designing Ports and Terminals: Key Waterside Issues

Dr. Stephen Huntington, Chief Executive, HR Wallingford, United Kingdom

From the Micro to the Macro: The Analysis of Coastal Zone Systems

Prof. David M. Paterson, Sediment Ecology Research Group, University of St Andrews, Scotland

Integrated Coastal Zone Management Constraints and Opportunities for the Arabian Gulf

Dr. Robert Kay, Principal, Coastal Zone Management (Pty) Ltd, Perth, Australia

Some New Developments in the Design Rules for Coastal Structures Relation with the New Rock Manual

Prof. Henk Jan Verhagen, Associate Professor in Hydraulic Engineering, Delft University of Technology, Delft, The Netherlands

UNESCO Regional Office in the Arab States of the Gulf – Marine and Coastal Sciences Activities 2004 – 2007

Dr. Benno Boer, Ecological Sciences Advisor, UNESCO Arab Region, UNESCO Regional Office, Doha, Qatar

Overview Of Marine Pollution In The Arabian Gulf With Emphasis On Pollutant Transport Modeling

Prof. Walid Elshorbagy, Associate Professor, Civil and Environmental Engineering Department, United Arab Emirates University, AlAin, UAE

Capacity Building in Coastal Engineering with a Focus to Countries in Transition

Prof. Henk Jan Verhagen, Associate Professor in Hydraulic Engineering, Delft University of Technology, Delft, The Netherlands

Theme A: Coastal Zone Management and Environment	Abstract	Paper
Measurement of water quality in Gulf of Oman <i>Sana, A., Al-Jamrab, A., Clareboudt, M., Al-Kindi, S., Tanaka, H. and Kwarteng, A. (Oman)</i>		
Monitoring coastal environmental response to human activity - a case study from Sohar Port, Oman <i>McCue, J. (U.K.)</i>		
Water quality and biological characteristics along Dubai Creek <i>Al Zahed, K. and Paterson, D.M. (U.A.E.)</i>		
Artificial reefs in the Gulf of Aqaba – Jordan <i>Al-Moghrabi, S. and Al-Sokhny, K. (Jordan)</i>		
Development of a coupled hydrodynamic/water quality model of Dubai Creek <i>Gallagher, T.W., Anid, P.J., De Rosa, L. D., Chan, M. and Kim, N.B. (U.S.A.)</i>		
Sensitivity index mapping as a tool for coastal sustainable development <i>Al-Sarawi, M. and Abdulrazzak, S. (Kuwait)</i>		
Environmental monitoring and mitigations for the management of marine projects of Nakheel <i>Haffar, I. and Mustafa, S. (U.A.E.)</i>		
Tools and elements for Environmental Impact Assessment (EIA) for small islands. <i>Al-Sarawi, M., Al-Khandari, S (Kuwait)</i>		
Design and model experiments for intake and outfall structures in Sohar Industrial Area <i>Derun, A.B., Altinisik, I., Al Musharafi, R. H. and Gunbak, A. R. (Turkey)</i>		
Study on the movement of natural oil seepage from underwater sources south of Kuwait <i>Rakha, K.A., Yapa, P.D., El-Sammak, A. and Dassanayaka, L.K. (Kuwait)</i>		
Impacts of marinas design and configuration on water quality, sediment and microbiology <i>Al-Sarawi, M., Malalah, F. and Khader, S (Kuwait)</i>		
The impact of development on Dubai Creek using a 3-D hydrodynamic water quality model <i>Anid, P.J., Gallagher, T.W., De Rosa, L.D., Chan, M. and Kim, N.B. (U.S.A.)</i>		
Development of a marine strategy for Qeshm Island <i>Shallard, B.D. (New Zealand)</i>		
Bahrain artificial reef - A case study <i>Al-Qassir, J.A. (Bahrain)</i>		
Coastal eutrophication and algal blooms in Abu Dhabi waters- A case study. <i>Rajan, A. and Al Abdessalaam, T.Z. (U.A.E.)</i>		
Marine and coastal protected areas: An ICZM tool to support the sustainable use of the marine environment of United Arab Emirates <i>Al Cibaby, A. and Zabran, T. (U.A.E.)</i>		
Environmental impacts of waterfront development in the Gulf <i>Warren, R. (Denmark)</i>		
An environmental approach to master planning Boubyan and Warba islands, Kuwait <i>Ward, S., Buchanan, K. and DeLange, J. (Kuwait)</i>		

Theme B: Coastal Dynamics and Monitoring

Abstract Paper

Overview of major applications related to coastal monitoring using satellite imagery
Pronier, O. (France)

Dubai coastal zone monitoring programme
Smit, F., Mocke, G.P., Fernando, S.G. (U.A.E.)

Monitoring changes along the Batinah Coast of Oman using remotely sensed data
Kwarteng, A.Y. Al-Hatrusbi, S., McLachlan, A., Sana, A., Al Buloshi, A., Hamed, K., Kumar, G.T.V. (Oman)

The use of video-based systems to monitor shoreline dynamics
Coco, G., Payne, G., Bryan, K.R., Ramsay, D., Dolphin, T. (New Zealand)

Application of satellite SAR images to sea and wind monitoring in coastal seas
Carratelli, E.P., Dentale, F., Giarrusso, C., Reale, F. and Spulsi, G. (Italy)

Verification of a WAM model for the Arabian Gulf
Al-Salem, K., Rakeba, K., Sulisz, W. and Al-Nassar, W. (Kuwait)

Numerical wave tank: Simulation of shallow water waves
Sriram, V., Sannasiraj, S.A., Sundar, V. (India)

WAVEGEN - A hindcast wave model for varying water depths
Searle, P. (U.A.E.)

Supporting better decision-making by use of a hybrid-boussinesq wave overtopping model for flood damage predictions
Weston, B., Hamer, B., Taylor, P. and Borthwick, A. (U.K.)

Numerical simulation of turbulence dynamics in surging breaking waves
Khayyer, A., Yeganeh-Bakhtiary, A., Gotob, H. and Sakai, T. (Iran)

Coastal process assessment for artificial islands
O'Brien, D. and Dales, D. (U.K.)

Use of coastal monitoring data to develop strategic and operational beach management plans in Southern England
Bradbury, A., Mason, T., Cooper, T., and Barter, P. (U.K.)

Environmental optimization of Jebel Ali new container terminal
Driscoll, A., Padron, D., Sayao, O., Goshom, C. and Bayram, A. (U.S.A.)

Role of near real time hydro-meteorological data in coast of Dubai - a case study
Al Marzooqi, Y., Fashir, H., Al Zarouni, A. and Ghassemi, M. (U.A.E.)

Oceanographic field instruments, operational constraints and solutions
Al-Hulail, F. (Kuwait)

MetOcean conditions offshore of Dubai's coastline – A review of data acquired during an intensive short-term programme
Yavary, M., Wallace, K., Driscoll, A. and Yavary, M. (U.S.A.)

Dubai coastal zone LIDAR survey
Sinclair, M. and Smit, F. (Australia)

Turbidity and currents in the coastal environment
Mudge, T., Thompson, I. And Al Salem, H. (China)

Theme B: Coastal Dynamics and Monitoring

Abstract Paper

Numerical model studies for the proposed fishing harbours <i>Sundar V., Sannasiraj S.A., Chitra Devi G.V. and Parith, S. (India)</i>		
Hydrodynamic and turbidity modelling of Port Phillip Bay, Australia <i>Aijaz, S. and Provis, D.G. (Australia)</i>		
Sediment transport assessment in Chabahar Harbour, North-East of Oman Sea <i>Yeganeh, A., Valipour, R., Haj Valei, F. and Mohammadi, M. (Iran)</i>		
Implementation of a numerical model to study coastal erosion along Al-Batinah, Oman <i>Sana, A., Al-Hatrusbi, S., McLachlan, A., Hamed K., Kwarteng, A., Al-Bolushi, A. and Kumar, V. (Oman)</i>		
An implicit numerical algorithm for solution of three-dimensional free-surface flows <i>Javan, M., Namin, M.M. and Salehi, S. A. A. (Iran)</i>		

Theme C: Coastal Stabilization and Waterfront Development

Abstract Paper

A preliminary assessment of coastal erosion along the Batinah: Sultanate of Oman <i>Al Hatrusbi, S. Kwarteng, A., McLachlan, A., Sana, A., Al-Bolushi, A., Hamed, K., Kumar, G.T.V. (Oman)</i>		
Overview of Nakheel developments and marinas <i>Bin Thalith, A.S. (U.A.E.)</i>		
Hydraulic studies of large scale reclamation schemes <i>Toms, G. and Thabet, R.A.H.A. (The Netherlands)</i>		
Prediction of shoreline evolution as a result of Palm Island <i>Smith, G.G., Soltan, C. and Retief, G. de F. (South Africa)</i>		
Equilibrium bay shapes - A review of their application in the Middle East <i>Burchett, S., Hosseini, S., Osment, J. and Fleming, C. (U.A.E.)</i>		
A numerical study of detached breakwaters <i>Morad, M.A., Abul-Azaym, A.G. and Rakha, K.A. (Egypt)</i>		
Planning of coastal protection considering the effects of tsunami along the coast of Tamilnadu, India <i>Sundar V., Sankar Babu K (India)</i>		
Coastal zone management of the Al-Subiya tidal channel, Kuwait: morphodynamic model <i>AlHasem, A. (Kuwait)</i>		
Dubai Jumeirah Open Beach development – design optimization approach <i>Mocke, G.P., Ward, S. Smit, F. and Fernando, S.G. (U.A.E.)</i>		
Validation of a coastal area morphological model along the Dubai coast <i>Johnson, H.K., Zyserman, J. A., Broker, I., Mocke, G.P., Smit, F. and Finch, D. (Denmark)</i>		
Mathematical modelling of dispersal of dredged sediments for the Colombo Port efficiency and expansion project <i>Raveenthiran, K., Wickramaratne, D., O'Brien, D. and Mendis, M. (Sri Lanka)</i>		
Integrating architecture and engineering in waterfront developments – International experience in dealing with the challenges <i>White, P. and Cruickshank, I. (U.K.)</i>		

ArabianCoast 2005 - Table of Contents

Theme C: Coastal Stabilization and Waterfront Development

Abstract Paper

Coastal property development – A UK perspective
Kemp, J.A., Coates, T.T. and Cruickshank, I.C. (U.K.)

The optimal use of numerical modelling tools in connection with coastal developments
Brøker, I. and Mangor, K. (Denmark)

Coastal engineering issues at Kish Island – Iran
Scheffer, H.J. and Ohle, N. (Germany)

Multi function geosystem applications in Dubai
Mocke, G.P., Weerakoon, S., Smit, F. and Al Zayed, K.M. (U.A.E.)

Monitoring of geosynthetics in coastal structures in the Arabian Gulf marine ecosystem
Jackson, A., Restall, S., Corbett, B.B. and Reichelt, R.E. (Australia)

Flexible but yet durable - geosynthetic solutions in hydraulic engineering and coastal protection
Kassner, J. and Schroër, S. (Germany)

Geosystems in marine constructions and coastal protection
Kievit, J.J. (U.A.E.)

Theme D: Coastal Risk Management

Abstract Paper

Management of storm surge flood risk in the coastal region of Bangladesh
Karim, M. F., Mimura, N. and Nobuoka, H. (Bangladesh)

Tsunami damages to coastal and port structures - Sri Lankan experiences
Scheffer, H.J. (Germany)

Sustainable flood risk management in european estuaries
Pontee, N., Hamer, B, Turney, P.D. (U.K.)

Tsunami hazards and mitigation along the coast of the United Arab Emirates
Jordan, B.J. (U.A.E.)

Assessing hurricane hazards and vulnerabilities: A Caribbean perspective
Smith, D.A.Y., Pozueta, B., Banton, J.D. and Warner, P. (Jamaica)

Analysis of dependence in a bivariate extreme process of extreme waves and surges
Galiatsstou, P. and Prinos, P. (Greece)

Overtopping signal analysis with empirical mode decomposition, instantaneous frequency and spectral analysis
Zeris, A., Koftis, T. and Prinos, P. (Greece)

Water forecasting - an operational service for waves, water levels, currents, water quality and transport of other pollutants
Hansen, I.S., Dahl-Madsen, K.I. and Jensen, A. (Denmark)

Theme E: Ports, Harbours and Marinas

Abstract Paper

An experimental study on the assessment of stability of Core-Loc armoured rubble mound breakwater.
Sundar V., Sannasiraj S.A., Balaji R. (India)

The laser monitoring of rubble mound breakwaters during hydraulic model testing in the laboratory.
MacHutchon, K.R. (South Africa)

Hydraulic performance of Xbloc® armour units
Klabbers, M., Van den Berge, A and Muttray, M. (The Netherlands)

Planning and development of industrial complexes and ports along the Arabian Coast
Damgaard, J. S., Ghanem, S. and Foster, D. (U.A.E.)

Port planning for Shahid Rajae Port Complex development
Ziraknia, A., Clarke, R.J. and Prentice, A. (Oman)

Effect of soil structure intercation on the seismic analysis of berthing structures
Velu, R.S., Sannasiraj, S.A. and Madhuri, S. (India)

Heritage as a trendsetter: transforming Abras into modern services
Malik, A.A.A. (U.A.E.)

Low-crested, low-overtopped, breakwaters - an overview of selected Nakheel projects
Mohammad, L.A. (U.A.E.)

Artificial reef design for the World
Stive, R.J.H. and Van der Lem, J.C. (The Netherlands)

Stability assessment of rubble mound breakwater and seawall with geosynthetics
Nasar T., Balaji R., Sundar V. (India)

On the hydrodynamic efficiency of floating breakwaters
Koftis, T. and Prinos, P. (Greece)

Numerical modeling of coastal dykes reinforcement using geo-synthetic material
Daghigh, Y., Shahroozifar, H. and Tolooyan, A. (Iran)

Development and application of an innovative breakwater armour unit
Reedijk, B., Bakker, P., van der Vorm-Hoek, C. and Vos-Rovers, I. (The Netherlands)

Size and shape, how new hard defences at Blackpool, England seek to reconnect the town and its beach.
Robertshan, G., Cunningham, L., Morrison, K. and Hamer, B. (U.K.)

Design of breakwater encompassing the submerged reef at Periyathalai, East Coast of India
Sundaravadevelu, R., Sundar, V. and Nagabhusan, N. (India)

Performance of an offshore low-crested rubblemound breakwater as a defence barrier
Reddy, M.G.M., Sannasiraj, S.A. and Natarajan, R. (India)

Hydrodynamic performance of some environment friendly breakwaters for Gulf
Neelamani, S. (Kuwait)

Studies on pile supported skirt breakwater
Laju, K., Sundar, V. and Sundaravadevelu, R. (India)

Theme E: Ports, Harbours and Marinas

Interaction of directional waves with an array of circular cylinders
Sankar B. K., Sannasiraj S.A., Sundar V. (India)

Abstract Paper
 

Optimal design of breakwater's armor layer with genetic algorithm
Yeganeh, A. and Valipor, R. (Iran)

Experimental study of random wave impact on deck of an offshore structure
Kannayya Setti V., Sundar V., Murali K. (India)

Theme F: Coastal Legislation, Planning and Cooperation

Shoreline management planning in Egypt
Raouf, M., Abdel Baset, F. and Dietrich, J. (Egypt)

Towards integrated coastal zone management in Iran
Pak, A., Farajzadeh, M. (Iran)

Coastal zone management in developing countries : an Indian experience – case study on Chennai coast
Pandian, P.K., Ramachandran, S. and Venugopal, K. (India)

Integrated coastal zone management in the United Arab Emirates
Mohamed, K.A. and Odeh, M. (U.A.E.)

Beach safety laws for the Dubai Municipality
McLeod, G. and Logie, M. (Australia)

National legislations relating to the integrated planning and management of marine and coastal zones of United Arab Emirates
Al Cibaby, A. and Zabran, T. (U.A.E.)

Proposed policy and administrative structure for coastal zone management in the Gulf region
Al-Sarawi M. and Dashti S. (Kuwait)

The coastal environment – Activities of the United Nations Environment Programme
El-Habr, H.N. (Bahrain)

Coastal engineering research activities in Kuwait : Achievements - Ongoing activities - Future plans
Neelamani, S. et.al (Kuwait)

Integrated coastal zone management along Alexandra Coastline, Egypt
Soliman, A.S.M. (Egypt)
