

5th Europe Congress in Trento

Short report

The 5th IAHR Europe Congress took place successfully on the 13 -15 June 2018 in Trento, Italy. The conference has been attended by more than 410 delegates with the presentation of about 400 scientific contributions. Participants presented their works throughout oral presentations and posters during the very intense days of the congress.

6 general sessions and 23 special sessions were taking place in parallel in 6 rooms. More than 60 conveners were in charge of the organisation of the special sessions that provided high quality results.

In parallel to scientific program, some social events were organised: a welcome party followed by a concert of the Choir and wind orchestra of the University of Trento, the social dinner, YPNs daily corners discussing very interesting topics.

A new award was established at the 5th IAHR Europe Congress: the Gerhard Jirka Award for Young Researchers of the IAHR Europe Division. The announcement of the three young awardees was made during the closing ceremony.

The Congress e-book of extended abstracts are online with their own DOI:
